Pittsburgh, Fort Wayne & Chicago R. R.

THIS New and Direct Route now open to New York, Boston, Pittsburgh, Philadelphia, Baltimore and Washington City, Cleveland, Dunkirk, Buffalo, Niagara Falls, and all Eastern Cities, Cincinnati, Columbus, Dayton, Springfield, Urbana, Zanesville, Steubenville, Newark and Wheeling, and all interior towns of Ohio, Pennsylvania, Virginia, Maryland, New Jersey, &c., making one grand unbroken Rail Road line between

CHICAGO AND THE EAST.

FARE AS LOW AS ANY OTHER ROUTE.

Passengers wishing to go by this desirable and pleasant Route, should be particular and ask for Tickets by Fort Wayne, avoiding the annoyance of re-checking baggage as by other Routes.

Trains leave Depot on VAN BUREN ST., daily as follows:

2.30 P. M. 8.00 P. M.

With but one change of cars to Pittsburgh.

CHECKING BAGGAGE THROUGH

To Pittsburgh, Philadelphia, Baltimore and New York. Connecting directly with trains on the great Pennsylvania Central Railroad, to all Eastern cities. Also, with Cleveland and Columbus Railroad to Cleveland, Dunkirk, Buffalo, Niagara Falls, via New York Central and New York and Erie Railroads to New York and Boston.

Persons going East will find this route by far the most desirable both from the advantage in point of distance, variety and beauty of the country through which the roads pass, as well as the less frequent changes of cars, and the annoyance of re-checking baggage required by other routes.

Facilities for the transportation of Freight and Live Stock by this route, are unsurpassed. Rates as low as any other route, and with equal dispatch.

Tickets for sale at all the principal ticket offices at the West, and at the Company's Office, No. 80 Dearborn St., opposite the Tremont House, Chicago, and at the office of the Lake Shore Railroad, Milwaukee, by A. G. Leland.

JOHN J. HOUSTON, General Freight and Passenger Agent, Pittsburgh.

New Line of Propellers.

BUFFALO, CLEVELAND AND CHICAGO LINE.

1857 1857

During the season of Lake navigation of 1857, the following named Propellers will run between Buffalo and Chicago, touching at Cleveland and intermediate ports, forming a tri-weekly Line for the transportation of freight and passengers:

Propeller FOUNTAIN CITY	800 tons burthen.	
do GALENA	750	do
do DACOTAH	750	do
do MENDOTA	750	do
do WENONA	750	do
do EVERGREEN CITY	650	do
do CUYAHOGA	650	do
do KENOSHA	650	do

All of the above vessels are new, having been built within the past year, expressly for the Upper Lake trade, and are of great strength of hull and power of engine, securing to shippers of freight greater despatch, and a less rate of insurance than any other line.

They will be fitted out with all the modern improvements introduced for the safety of passengers and freight, with spacious and well arranged cabins for families and emigrants, affording them the cheapest, safest and quickest transit from Buffalo and Cleveland to ports on the west shore of Lake Michigan.

The vessels of this line will run in connection at Buffalo with the NEW YORK CENTRAL RAILROAD, AND THE Troy and Western Line of Canal Boats, On the Erie Canal; at Cleveland with the Cleveland, Pittsburgh & Wheeling Railroad,

Furnishing each of these companies tri-weekly accommodations for the shipment of freight and passengers.

With these facilities the proprietors respectfully solicit a share of public patronage.

Milwaukee and Her Railroads.

The map which we publish this morning, illustrating Mr. FILLMORE's advertisement of a large sale of desirable lots in Perkins' Addition, Sixth Ward, shows at glance the Railroad system of our city. Of these roads, one, the M. & M. R. R., is on the eve of completion to the Mississippi. The La Crosse & Milwaukee R. R. is already half way there. The Milwaukee & Watertown R. R. is close to Columbus, and will shortly be extended to Madison and Portage. The Milwaukee & Beloit, and the Southern Wisconsin will connect with the Mississippi within a twelvemonth. The Milwaukee & Horicon will be open to Berlin, on the Fox River, in four months. The Lake Shore and the Air Line to Fond du Lac, are both making good progress Northwardly. Lastly the two great Land Grant roads, which will both, in effect, terminate here, are to be pushed ahead vigorously and perseveringly, until they bring Minnesota on the North-west and the Lake Superior region on the North, into constant, direct and profitable connection with Milwaukee. Mr. FILLMORE has a large number of these maps, on a larger scale, for gratuitous distribution. They should be circulated far and wide.

We notice that Beloit and Oshkosh, thriving towns in the interior, are not set down on the Map, but this oversight does not argue any lack of appreciation of their importance.

The Fox and Wisconsin Improvement.

It will be seen, from an official notice in our advertising columns, that the Fox and Wisconsin Rivers Improvement will be opened for navigation, from Green Bay to Lake Winnebago, on the 13th day of April next.

NEW MILITIA ORGANIZATION.—We publish to day the Act passed at the late session, providing for a complete re-organization of the militia districts throughout the State. It is to be hoped that such an organization may be effected as will at least serve to secure annual returns of the militia, so that the State may obtain its quota of arms and equipments from the general government.

LAW AGAINST TRESPASSES ON SWAMP LANDS.—We publish to day the law passed at the last session of the Legislature, for the prevention of trespasses upon the Swamp Lands of the State.

PERVERSE INCREDULITY.—The Stevens Point *Pinery* accuses the telegraph wires of being infected with Republicanism, and gives this instance in point:

"Last week came through that source a report of the resignation of Gov. Geary, accompanied with a long string of reasons for the alleged resignation, as coming from Gov. Geary. It was copied from the St. Louis *Democrat*, a *rabid opposition sheet*. The whole story, resignation and all, needs confirmation."

Now that "the whole story" is abundantly confirmed, no doubt the *Pinery* will make the *amende honorable* to the telegraph wires; and as to the St. Louis *Democrat*, so far from being "a rabid opposition sheet," it is the recognized organ of the St. Louis Democracy and sustained Mr. BUCHANAN zealously in the late Presidential contest.

FAMILY JARS.—Nearly five columns of the Madison *Patriot* of Saturday are occupied with an article, forwarded from Washington and signed by "the Wisconsin National Democrats" now represented there, devoted to a thorough and scorching exposure of "Barstow and the Balance;" who, it appears are trying to palm themselves off upon the administration as the genuine democracy of Wisconsin. Between the Barstow and anti-Barstow factions, Mr. BUCHANAN and his advisers will be sorely puzzled how to decide.

LAW OF CHALLENGES TO JURORS.—A bill has been introduced in the New York Legislature, limiting the bias and prejudice for which a challenge to a Juror will lie, to three cases: 1st, where it is personal to the accused. 2d, where it arises from personal knowledge of the charge. 3d, where it springs from conversations with witnesses to any fact embraced by the indictment, thus excluding all bias founded upon the hearsay of third parties, or from reading preliminary reports. It is drawn by District Attorney Hall, of N. Y. city, and has been favorably reported by Hon. S. A. Foot, of Geneva, who is a most excellent lawyer, and an Ex Judge of the Court of Appeals.

It is to be hoped that such a law may be provided in this State, so that it may not be necessary, in the most important trials, to be limited to the most stupid men in the community as Jurors

N. Y. AND ERIE RAILROAD.—The responsible post of Superintendent of the N. Y. and Erie Railroad, which became vacant, not long since, by the resignation of Mr. MCCALLUM, is to be filled by the late President of the Company, HOMER RAMSDELL. Mr. R. is singularly well qualified for the station and will, we are persuaded, make a popular, efficient and successful officer. The Erie Road, like most other Railroads in the country, suffered considerably during the recent severe winter; but with the return of Spring, its business is increasing very largely. It is a magnificent thoroughfare and admirably managed.—We copy, from the Goshen (N. Y.) *Republican*, the following paragraph in regard to the new Superintendent:

N. Y. & ERIE RAILROAD.—Since the resignation of Mr. McCallum, the public have been anxious to know by whom his place would be filled. It seems now to be generally understood that the President of the road—Homer Ramsdell, Esq.—will assume the Superintendency, in addition to the responsibilities devolving upon him as "chief executive officer" of the road.

An ordinary man would shrink from the additional labor and care which this new office will impose; but such a man is not Mr. Ramsdell. If sagacity, patience and industry, will enable a man to preside over so mammoth a concern as the New York and Erie, and to work it well in all its details, Mr. Ramsdell will succeed; and neither the public or the interests of the road will suffer by the withdrawal of Mr. McCallum.

☞ No sensible and honest man can believe for a moment, that Mr. Geary stopped at a Republican office in St. Louis, on his way to Washington, and told the editor the story he published.—*Fond du Lac Union.*

True, unbelieving Thomas; but Gov. Geary did stop at a *democratic* office—the St. Louis *Democrat* to wit—and told the editor the story he published.

WISCONSIN FARMER FOR APRIL.—The April number of this capital farmer's paper is out. The proprietors are distributing to each subscriber a package of the Chinese Sugar Cane seed, and they have sufficient back numbers on hand to enable new subscribers to begin with the January number.

GRAFTON GONE.—The town and village of Grafton, Ozaukee Co., have disappeared—taken away by act of Legislature, in accordance with the wish of the people, and the name "Manchester" will hereafter appear on the map instead thereof

REMOVED TO MADISON.—The office of the *Emigranten*, the staunch and steady Republican Norwegian paper, hitherto published at Janesville, is to be removed to Madison very shortly.

☞ The Galena *Advertiser* says that ELI S. PARKER, Grand Sachem of the Six Nations of New York, has been appointed by the President to superintend the construction of the Custom House in that city.

POWERS' STATUE OF AMERICA.—It is said that this last great work of HIRAM POWERS, the American Sculptor, has been purchased by JOHN N. GENIN, the New York hatter.

Valuable Railroad Improvements.

In these times, when so many lives are sacrificed by Railroad accidents, it is gratifying to see that the inventive genius of our countrymen is at work devising means of safety without too great a sacrifice of speed—for speed the traveling public *will* have.

One of these recent inventions is a railroad switch, contrived by J. M. Dick of Buffalo, which is opened and closed with unerring certainty by the passing locomotive, at any rate of speed. The Buffalo *Republic* gives an interesting account of a test trip made on the Buffalo & New York City Railroad. The invention is thus described:

"This switch is one that combines the greatest utility, with the most perfect simplicity and economy. When at rest this switch keeps the main track constantly perfect. When cars wish to leave the main track, the movement of the rail, connected with rods, is against a heavy eliptic spring, and when it is moved to the correct point, a catch like that in a gun lock holds it. On the side of the rail, connected with this catch, runs a lever for the distance of fourteen feet, with a circular piece of iron on the end of it, projecting an inch or two above the rails. As the locomotive comes along, the forward wheel strikes the end of the lever, the catch is released, and the rails spring to their main track connected like a flash of lightning. Thus if the switch has, by design or by accident, become displaced, the first locomotive coming along, instead of running off the track, makes all straight by passing over the lever. It is impossible that it can by any means get out of order, and as an invention to add to the safety of property and lives on Railroads, is unrivalled and incomparable.

The train was run back from Hornellsville to Buffalo, at 45 miles per hour or more, *seventeen* switches having been left open, to be closed by the passing train, at that rate of speed. A failure at one switch would have thrown the train down an abyss of 250 feet at the Portage bridge. The experiment was a fearful and a fool hardy one, but the switch did its duty. The last 31 miles was run in 37 minutes, passing over and closing *six* of the open switches.

Another valuable invention is Loughridge's Car Brake, which was tried near Cincinnati, on the Dayton railroad. The brake was tested carefully and with the following gratifying results:

1st. A train of six cars was run at a speed of thirty-three miles per hour, and brought to a full stop in twenty two seconds, in a distance of five hundred feet.

2d. A train of four cars was run at a speed of thirty-seven miles per hour, and stopped in twenty seconds in a distance of five hundred and ten feet.

3d. A train of four cars was run at a speed of thirty-seven miles, and stopped in nineteen seconds in a distance of five hundred feet.

4th. Five cars, speed forty-one miles per hour, stopped in nineteen seconds in a distance of seven hundred feet.

5th. Four cars, speed forty-five miles per hour, stopped in twenty seconds in a distance of seven hundred and twenty feet.

Waukesha Circuit Court.

MARCH 28, A. D., 1857.

STATE OF WISCONSIN *vs.* THOMAS M. KNOX.—This cause came up for argument on motion to quash the indictment, on the ground that the Court had no jurisdiction. Court held the offence indictable, but quashed the indictment on the ground of the informality of the same. Indictment from Jefferson Circuit, for taking illegal fees, and also for taking fees when services were not rendered, both of which by the Court were held indictable offences. Mr. ENOS for State; Mr. DOWNER for Defendant.

DESTRUCTIVE FIRE AT ST. LOUIS—Loss $90,000.—On Thursday morning last, the Cotton Factory of Adolphus Meier & Co., corner of Lafayette and Menard streets, was entirely destroyed by fire.—The building was four stories high, 60 feet wide, and 160 feet deep, fully equipped with all the most improved machinery incident to an establishment of that kind.

Messrs. Meier had $64,000 insurance on the factory and machinery—which will cover about two-thirds of the entire loss. The insurances were mostly in St. Louis offices.

This factory gave employment to about two hundred persons, most of them girls and boys of various ages, who are, by this calamity, thrown out of employment.

AN IMMENSE CANAL.—The Grand Ganges Canal, says the *Encyclopedia Brittanica*, has a course of 898 miles, is navigable throughout, and waters a district of country equal in area to 5,400,000 acres. The inclination of this canal is 1 to 3,530, its depth is 10 feet, the breadth of its bed over the whole length is 140 feet, and it is intended to convey 6,750 cubic feet of water per second. Our American works of this character sink almost into insignificance in comparison, though as commercial channels many of them exceed it greatly. The Ganges Canal, we believe, was constructed chiefly for purposes of irrigation, and has been but recently opened.

Gov. Geary and Kansas.

The New York *Courier and Enquirer* remarks as follows in relation to the account given by Gov. Geary, on his return to St. Louis, in relation to matters in Kansas:

What will the smooth spoken optimists, who have all the while been holding out that there is no need of making a fuss about Kansas, it being sure to be a Free State, say to Governor Geary, who declares that the establishment of a slavery constitution is inevitable? What have the pitiful witlings, who have been accustomed, in their poor way, to sneer about "bleeding Kansas," to say to Governor Geary, who avers, in relation to the outrages committed by the pro-Slavery men, that one-half has not yet been told? What have the quietists, who have been apologizing for the border-ruffians and preaching forbearance towards them, to say to Gov. Geary, who asseverates that from the time he entered the Territory, fifty men were under oath, to assassinate him unless he governed according to their will?—The reasons assigned by Gov. Geary for his resignation, ought to make this whole tribe ashamed to show themselves in the light. In view of the truth, as he now presents it, the only wonder is that human nature has been able to endure such a system of villainy as has been practiced upon the Free State men of Kansas, without exterminating its authors from the face of the earth. Will any Northern man say that Gov. Geary has not gone sufficiently far in his efforts to propitiate the border ruffians? Did he not signalize the commencement of his administration by stopping, delaying, and harrassing the free state emigrants at the northern borders, who, driven from the Missouri river, had been forced to take the tedious and toilsome pilgrimage through Iowa? Has he not refused to pardon the Hickory Point prisoners, so infamously found guilty by Lecompte and his creatures in the jury-box, for taking up arms in defence of themselves and their families against border ruffian invaders? Did he not recognize the spurious pro-slavery Legislature which has just adjourned at Lecompton, elected without law, and eclipsing even the first Shawnee Mission set of usurpers, in the abominable character of its enactments? Gov. Geary has sacrificed a thousand times more than he ought to have done to buy his peace with the ultra pro-Slavery party, and yet because he has refused to surrender everything to their unlimited control, and has exerted himself to preserve some degree of order, and some semblance of justice, he has been spit upon and spurned, and driven from the territory in the fear of his life. More compliant than Governor Reeder, he yet shares the same fate.

A SINGULAR MEETING.—The New York *Mirror* says:

Gen. La Vega, the Mexican General, is stopping at Willard's Hotel, at Washington, as is also Colonel May, who took La Vega's guns and made him prisoner at the battle of Palo Alto; and to complete the curious reunion, Col. Magruder, to whom May handed La Vega over for safe-keeping, is at the same hotel. It must be pleasant as well as suggestive to see these warriors assembled at the same dinner table, hobnobbing in a friendly way, and popping champagne corks instead of nine-pounders.

☞ There is every prospect of the River opening and Boats running, in two weeks. The snow has almost disappeared from the Prairie, and real Spring weather prevails. The Cars are expected to arrive in time to connect with the Great North-Western Minnesota Packets which are to leave daily for St. Anthony, to accommodate the rush of travel that has already commenced.—*Prairie du Chien Patriot, March 26.*

THE MISSISSIPPI OPEN.—A despatch dated Dubuque, yesterday afternoon, informs us that the Mississippi, at that point, is open, and that boats may soon be expected to commence their regular trips.—*Chicago Tribune, 28th.*

Jefferson, Jackson and Kent vs. Taney.

After the engagement between the frigates Chesapeake and Leopard, off the Capes of Virginia, on June 22nd, 1857, in which the former struck her colors, four men were taken from her by the British captain of the Leopard, whom he claimed as deserters. Two of these men, John Straban and William Ware, were negroes, and both born in Maryland. In the proclamation issued shortly afterwards by President Jefferson, excluding British vessels of war from American waters, he said:—

"This enormity was not only without provocation or justifiable cause, but was committed with the avowed purpose of taking by force from a ship of war of the United States a part of her crew, and that no circumstance might be wanting to mark its character, it had been previously ascertained that the seamen demanded were *native citizens of the United States.*"

In an address which Gen. Jackson issued to the colored soldiers of his army in Louisiana, on the 18th of December, 1814, he said:—

"When, on the banks of the Mobile, I called you to take up arms, inviting you to partake the perils and glory of your *white fellow citizens*, I expected much from you; for I was not ignorant that you possessed qualities most formidable to an invading enemy. I knew with what fortitude you could endure hunger and thirst, and all the fatigues of a campaign. I knew well how you loved your native country, and that you, as well as ourselves, had to defend what man holds most dear—his parents, wife, children and property. You have have done more than I expected. In addition to the previous qualities I before knew you possess, I found among you a noble enthusiasm, which leads to the performance of great things."

Chancellor Kent's opinion of the right of negroes to citizenship is no less explicitly expressed in his Commentaries on American Law, vol. ii, p. 258, note:

"Perhaps, after all, the question (whether a negro is or is not a citizen of the United States) depends more on a verbal than on an essential distinction. It is certain that the constitution and statute law of New York (Const. art. 2; N. Y. Revised Statutes, vol. 1, p. 126, sec. 2,) speak of men of color as being *citizens*, and capable of being freeholders, and entitled to vote. And if, at common law, all human beings born within the allegiance of the king, and under the king's obedience, were natural-born subjects and not aliens, I do not perceive why this doctrine does not apply to these United States, in all cases in which there is no express constitutional or statute declaration to the contrary. Blacks, whether born free or in bondage, if born under the jurisdiction and allegiance of the United States, are natives, and not aliens. They are what the common law terms natural born subjects. Subjects and citizen are, in a degree, convertible terms as applied to natives; and though the term *citizen* seems to be appropriate to republican freemen, yet we are, equally with the inhabitants of all other countries, *subjects*, for we are equally bound by allegiance and subjection to the government and law of the land.

The privilege of voting, and the legal capacity for office, are not essential to the character of a citizen, for women are citizens without either; and free people of color may enjoy the one, and may acquire, hold, and devise, and transmit by hereditary descent, real and personal estates. The better opinion I should think was, that negro or other slaves, born within and under the allegiance of the United States, are natural born subjects, but not citizens. *Citizens*, under our constitutions and laws, mean free inhabitants, born within the United States, or naturalized, under the laws of Congress. *If a slave, born in the United States, be manumitted, or otherwise lawfully discharged from bondage, or if a black man be born within the United States, and born free, he becomes thenceforward a citizen*, but under such disabilities as the laws of the States respectively may deem it expedient to prescribe to free persons of color."

In view of the accumulated weight of opinion against Judge Taney, it is no wonder that that gentleman withholds for revision the manuscript from which his decision in the case of Dred Scott was pronounced. Revise it as he may, there is no chain of reasoning by which he can circumvent the facts and arguments contained in the opinion of Judges Curtis and McLean. We await its promulgation, however, with curiosity, for we desire to ascertain what amount of ingenuity the learned Chief Justice will have exercised in the revision. It is stated that the editors of the National Intelligencer recently applied for it for publication, and were refused.—*Boston Atlas.*

Affairs at Washington.

WASHINGTON, March 23.

I yesterday conversed with a number of gentlemen who came with Gov. Geary from Kansas, and who are in favor of a Free State. They expect the most disastrous consequences to flow from his retirement. They say the determination of the Slavery faction to enforce the spurious laws is unflinching, and that the resolution of the Free State party not to submit to them, is equally immovable. The Free State emigration which they met going in, is very heavy, much larger than that of any previous season. But they are completely disfranchised by the existing laws. The ruling faction admit and insist that the edicts called laws, were framed to deprive their opponents of all political rights; that they have, up to this point, been found effectual to that end; and that they will henceforward be enforced in that spirit.

The Free State party will take no part in the elections for the constitutional convention. To do so, would produce bloody fights at the polls, and though they had 20,000 majority, they know that their votes would be suppressed, the whole machinery being in the hands of the most abandoned instruments of the Ruffian party.

At the time of Geary's advent, real estate was worthless and unsaleable. During the intervening six months prices have gone up, and just previously to his departure all was life and prosperity. Fifteen thousand dollars were offered in February for a claim near Lawrence, which last August could have been bought for $2,500, and which its owner now supposes may be reduced to the latter price.

It is the last extreme of wicked infatuation to suppose that a vast community of American citizens, like that in Kansas, can be degraded and oppressed by a series of mob resolutions, to be enforced by the bludgeon and bowie knife, without involving the country, sooner or later, in consequences too gloomy to anticipate. Mr. Buchanan must know this, and it is to be hoped—however faint be the hope—that he will burst the bonds of party, and resolve to preserve the peace of the country.

Ex-Gov. Bigler was a candidate, it is understood, for the Collectorship of San Francisco, of which the profits are $10,000, but which has ruined everybody who has heretofore held it. The Governor is appointed as Minister to Peru, in place of Hon. David S. Starkweather, of Ohio.

There is difficulty in the *Union* office, between Mr. Appleton and certain other Democrats who aspire to the honor of directing the organ and of pocketing the enormous perquisites attached to the same. Mr. Appleton has not yet recovered from the painful illness contracted from the poisoning at the National Hotel. But two or three articles in the journal, fairly traceable to his vigorous and polished pen, have appeared since his nominal editorship commenced.

The British and American treaty, as modified by the Senate, has been adopted by the Executive, and gone to England. It will soon become the law of both countries, and either will have the right to intervene for restoring legitimate governments in Nicaragua, and expelling the pirates and robbers that now infest it.

Our relations with Granada are threatening. It is due to the rights of Americans in all foreign countries, that a severe reparation be exacted from the government of Granada, for the massacres and robberies enacted upon the isthmus last March. It is discreditable to this government that the matter has been suffered to drag along one year, without even the promise of redress. INSPECTOR.

—*N. Y. Courier and Enquirer.*

Taney Democracy is not Jeffersonian Democracy.

While Judge Taney, the Albany *Argus*, and the Democracy generally, assert that "negroes have no rights which white men are bound to respect," Jefferson justified open war with England to "protect" those "rights."

After the engagement between the frigates Chespeake and Leopard, off the Capes of Virginia, on June 22d 1807, in which the former struck her colors, four men were taken from her by the British captain of the Leopard, whom he claimed as deserters. Two of these men, John Straban and William Ware, were negroes, and both born in Maryland. In the proclamation issued shortly afterwards by the President Jefferson, excluding British vessels of war from American waters, he said:

"This enormity was not only without provocation or justifiable cause, but committed with the avowed purpose of taking by force from a ship of war of the United States a part of her crew, and that no circumstance might be wanting to mark its character, it had been previously ascertained that the seamen demanded were *native citizens of the United States.*"

Jefferson knew something of the Constitution, and is still venerated as the father of the Democratic party. But his views of the Constitution, natural rights and democratic principles were the antipodes of those now maintained by his degenerate disciples.—*Albany Evening Journal.*

GALENA RIVER.—This river is now entirely free from ice, and after to-day we shall look for the arrival of boats from below. *Galena Advertiser*, 27th.

Dreadful Accident on the Illinois Central Railroad.

Five Men Killed and Eight Injured.

Narrow Escape of a Whole Train of Passengers.

We learn from a gentleman who arrived yesterday from La Salle that a frightful accident occurred on Thursday morning on the Illinois Central Railroad, near La Salle. The particulars are as follows:

About 7 o'clock in the morning, the gravel train, loaded with laborers, who work along the line, started from La Salle southward. The train crossed the bridge all right, and as the engine came on to the embankment on the other side of the bridge, it all at once gave way, and the whole train was precipitated a distance of probably twenty-five feet. Four men were killed on the spot, and one died a few hours afterwards. Eight others were severely injured, some with broken legs, arms, &c. The engineer and fireman escaped with their lives, though somewhat injured. The marvel is that so many escaped.

The heavy rains of last Sunday, along with the general thaw that ensued, had so softened the embankment, that it appeared as soft and as incapable of bearing up a train as the softest kind of mud. Whenever the engine came off the bridge, it seemed as if it had fallen over a precipice.

But disastrous as the occurrence has proven, it seems providential that it is not much more fatal. The passenger train that ought to have passed over the road at that point on Wednesday night, by some trival accident was delayed, and did not arrive at the fatal spot till after the gravel train was wrecked. As it was loaded with passengers, boxed up in close cars, the sacrifice of life that would have attended its attempt to cross must have been much larger.

Our informant did not learn the names of the dead and injured. They were all Irishmen at work on the road, and probably all have families. —*Chicago Press.*

Laws of Wisconsin.

PUBLISHED, MARCH 19.

AN ACT to prevent trespasses on the swamp and overflowed lands in this State.

The People of Wisconsin, represented in the Senate and Assembly, do enact as follows:

SEC. 1. The Governor of the State is hereby authorized and empowered to cause to be surveyed the Islands in the Mississippi and Wisconsin Rivers, and the unsurveyed lands adjacent to said rivers, belonging to this State, granted by act of Congress approved 28th of September, A. D. one thousand eight hundred and fifty, entitled "An Act to enable the State of Arkansas and other States to reclaim the swamp lands within their limits," and to do all other things he may deem necessary to obtain from United States the patents for the lands situated in such islands belonging to this State.

SEC. 2. Sections three, four, five, six, seven, eight and nine of chapter eighty-four of the Session Laws of A. D. 1855, are hereby revived and declared in full force and effect.

SEC. 3. In all prosecutions, actions and suits brought under the provisions of this act, for trespasses committed on any of the swamp or overflowed lands granted to this State by the act of Congress aforesaid, whether said lands be surveyed or unsurveyed, or whether said lands have been selected and patented to this State or remain unselected or unpatented to the State, parol testimony may and shall be admitted to prove said lands, swamp and overflowed lands, made unfit thereby for cultivation and to belong to the State of Wisconsin.

SEC. 4. The Governor is hereby authorized and empowered to cause to be seized and sold at public auction any and all timber, logs and wood cut upon or removed from any swamp or overflowed lands belonging to this State, by persons trespassing thereon, whether such lands have been surveyed or remain unsurveyed, and whether such lands have been selected or remain unselected, and whether said lands have been patented to this State or remain unpatented.

SEC. 5. All provisions of section three, four, five, six, seven, and nine of chapter eighty-four of the session laws of A. D. 1855, shall have force and be applicable to the surveyed and unselected swamp and overflowed lands belonging to this State in the same manner as to the selected swamp and overflowed lands.

SEC. 6. All monies arising from fines recovered under this act, as also all monies received on sales of any timber, logs and wood sold by virtue of this act, shall be paid into the State Treasury for the use of Common Schools.

SEC. 7. For the purpose of carrying out this act and the provisions thereof, concurrent jurisdiction over the whole width of the Wisconsin River, and the islands therein, is hereby given to each of the counties, bordering on and opposite to any of the islands aforesaid; and all suits and prosecutions for any trespasses to any of the islands in said Wisconsin river may be instituted and maintained in either counties bordering on the on said river and opposite to the land trespassed on.

SEC. 8. This act shall take effect and be in force from and after its passage.

Approved, March 5, 1857.

STATE OF WISCONSIN, (
Secretary's Office.) ss.

The Secretary of State of the State of Wisconsin, does hereby certify, that the foregoing act has been compared with the original enrolled deposited in this office, and that the same is a correct and true copy thereof, and of the whole of such original.

In witness whereof the said Secretary of State has hereunto set his his hand and affixed the Great Seal of the State, at the Capitol in Madison, this 19th day of March, A. D. 1857. [L. S.]

D. W. JONES,
Secretary of State.

[Published March 27.]

AN ACT to amend chapter 187, of the Session laws of 1851, entitled "an act relating to militia."

The People of the State of Wisconsin, represented in Senate and Assembly, do enact as follows:

SEC. 1. Chapter 187 of the Session laws of 1851, entitled an act relating to the militia is hereby so amended as to authorize and require the Adjutant General of the State, immediately after the passage of this act, to re-organize the militia of this State, and to divide the State up in new military divisions, brigades, regiments, battalions and companies, in such manner as he shall deem advisable and convenient.

SEC. 2. Such alterations of the divisions, brigades, regiments, battalions and companies, shall be made in writing by the adjutant general, and when approved by the governor, shall be filed in the office of the Secretary of State, and upon filing the same, the various offices of such divisions, brigades, regiments and battalions shall be deemed vacant and they shall be filled in the manner now provided by law.

SEC. 3. All acts and parts of acts contravening the provisions of this act are hereby repealed.

SEC. 4. If any town or ward assessor, or any clerk of any town or city, or any clerk of the board of supervisors of any county, shall fail or neglect to make return of the number of persons liable to military duty as required by law, the persons so offending shall forfeit and pay a sum not less than fifty dollars nor more than one hundred dollars, to be received [recovered] in an action of debt in any court having competent jurisdiction.

SEC. 5. This act shall take effect and be in force from and after its passage.

WYMAN SPOONER,
Speaker of the Assembly.

THE "DEAN AND BOKER CASE."—The N. Y. *Herald* says:

Believing that a ray of light cast upon the secret success of the gallant Lothario, Dean, might not be in the least detrimental to his character, but on the contrary commendable, I here forward you the particulars. About two years ago, John Dean was engaged, in the occupation of carpenter, in repairing some closets at the dwelling of Mr. Boker. John made frequent visits, after the first, from his modest and prepossessing appearance, aroused the admiration of his "heroine." To be brief, John's presence being most cordial, our fair heroine conceived the following plan, viz: The usual coachman was tenderly asked to dispense with his services for the installment of "John," and having acquiesced most voluntarily, he proffered his services. Having absquatulated and John having noticed the advertisement for coachman, was accepted, and consequently was every way favored for the accomplishment of his late magnanimous and victorious undertaking.

A MEXICAN BAROMETER.—On board of the Mexican steamer is a barometer of the most simple construction, but the greatest accuracy. It consists only of a long strip of cedar, very thin, about two and a half feet in length, about an inch wide, cut with the grain, and set in a block, or foot. This cedar strip is backed, or lined, with one of white pine, cut across the grain, and the two are tightly glued together. To bend these dry is to snap them, but on the approach of bad weather the cedar curls over until the top at times touches the ground. This simple instrument is the invention of a Mexican guitar maker, and such is its accuracy that it will indicate the coming of a "Norther" full twenty-four hours before any other kind of barometer known on the coast. Had this been the production of Yankee ingenuity it had been patented long ago, and a fortune made by its inventor.—*Mobile Register, March 4.*

Modern Patriots.

In vain may croakers now deplore
The race of Patriots is no more;
For Patriots flourish in all climes,
And we shall see in modern times
(As ancient Egypt worshipped cats)
The apotheosis of rats.
For when the evils of the State
Are waxing every hour more great;
When venal swarms of every station
Infest each haunt of legislation;
When Freedom naps, or else goes mumming,
And the Wished Man is long in coming;
Three small avengers, staunch and leal,
Shall drown themselves *for public weal*;
Deliverers of the groaning nation
After the antique Roman fashion.

A Peep into the Bank of England.

The Bank of England must be seen on the inside as well as out, and to get into the interior of this remarkable building, to observe the operations of an institution that exerts more moral and political power than any sovereign in Europe, you must have an order from the governor of the bank. The building occupies an irregular area of eight acres of ground—an edifice of no architectural beauty, with not one window toward the street, being lighted altogether from the roof of the inclosed area.

I was led, on presenting my card of admission, into a private room, where, after a delay of a few moments, a messenger came and conducted me through the mighty and mysterious building. Down we went into a room where the notes of the bank received the day before were now examined, compared with the entries in the books, and stored away. The Bank of England never issues the same note a second time. It receives in the ordinary course of business, about £800,000, or $4,000,000, daily, in notes; these are put up into parcels according to their denomination, boxed up with the date of their reception, and are kept ten years, at the expiration of which period they are taken out and ground up in the mill, which I saw running, and made again into paper. If in the course of ten years any dispute in business or law suit should arise concerning the payment of any note, the bank can produce the identical bill.

To meet the demand for notes so constantly used up, the bank has its own paper makers, its own printers, its own engravers, all at work under the same roof, and it even makes the machinery by which the most of its own work is done. A complicated but beautiful operation is a register, extending from the printing office to the banking offices, which marks every sheet of paper that is struck off from the press, so that the printers cannot manufacture a single sheet of bank notes that is not recorded in the bank.

On the same principle of exactness, a shaft is made to pass from one apartment to another, connecting a clock in sixteen business wings of the establishment, and regulating them with such precision that the whole of them are always pointing to the same second of time. In another room was a machine, exceedingly simple, for detecting light gold coins. A row of them dropped one by one upon a spring scale. If the piece of gold was of the standard weight, the scale rose to a certain height, and the coin slid off upon the side of the box; if less than the standard, it rose a little higher and the coin slid off upon the other side. I asked the weigher what was the average number of light coins that came into his hands, and, strangely enough, he said it was a question he was not allowed to answer.

The next room I entered was that in which the notes are deposited which are ready for issue. "We have thirty-two millions of pounds sterling in this room," the officer remarked to me; "will you take a little of it?" I told him it would be vastly agreeable, and he handed me a million, (five millions of dollars,) which I received with many thanks for his liberality, but he insisted on my depositing it with him again, as it would hardly be safe to carry so much money in the street. I very much fear that I shall never see the money again. In the vault beneath the door was a director and a cashier counting the bags of gold, which men were pitching down to them, each bag containing a thousand pounds sterling, just from the mint. This world of money seemed to realize the fables of eastern wealth, and gave me new and strong impressions of the magnitude of the business done here, and the extent of the relations of this one institution to the commerce of the world.

The Richest Community in the World.

A day or two since we had occasion to mention that the result of the late sale of the Delaware Indians trust lands was $410,000. The lands sold were only those comprised in the eastern division of this great reservation. The western division is now advertised to be sold.—That contains some 350,000 acres, and will undoubtedly bring an aggregate of at least $600,000. The tribe are also the owners of a home reservation almost immediately adjoining Leavenworth City, forty miles long by ten broad.—That would sell to-morrow readily for $10 per acre, or an aggregate of $2,000,000. Thus their total wealth, independent of personal property—and some of them are of considerable individual means—is about $4,070,000. They number in all some nine hundred souls; and from the real estate described above, are worth an average of $4,440 per soul, or $22,220 to each family of five persons among them.—*Washington Star.*

ANECDOTE OF THE LATE MR. ZIMMERMAN.—The Elmira *Gazette* states that when MR ZIMMERMAN, the millionaire, who was killed by the accident at Hamilton, left his family in Pennsylvania, and started for the west, he was for a long time entirely lost sight of. In the meantime, a younger brother, by frugally taking care of his earnings, was enabled to start a coach line between Spruce Creek, and Williamsburg, consisting a four wheeled vehicle and two horses, which he drove himself. Several years ago a gentleman stopped at Spruce Creek, and desired to be driven to Williamsburg, but there being no other passenger, the proprietor of the aforesaid "line" at first objected. He, nevertheless, consented, and when the stranger got out, he handed him, instead of the usual fare—three dollars—*a three hundred dollar bill*. This opened the stage proprietor's eyes to the importance of his passenger; and he soon discovered that he was no other than his brother SAM. Subsequently the now wealthy banker bought his poorer brother a farm worth $5,000, in Illinois, on which he now resides.

THE MARKETS, &c.

OFFICE OF THE DAILY SENTINEL, (
MILWAUKEE, March 30, 1857.)

Received by Mil. & Miss. R. R.—143 bbls flour, 2520 bus wheat, 645 do potatoes, 62 hides, 37 pelts, 9 hogs, 1 car horses, 1 do cattle, 1 do hay, 5 kegs butter, 18,525 lbs mdse.

By LaCrosse & Milwaukee R. R.—1179 bus wheat, 114 bbls flour, 82 bus barley, 9,632 lbs sundries, 69 hides, 89 pelts.

Watertown Division.—202 bus wheat, 1 car car stone, 3,520 lbs sundries.

By Mil. & Horicon R. R.—780 bus wheat, 132 bbls flour, 19 hides, 6 bdls hides, 6000 lbs sundries.

No change in the market on Saturday to note. Sales of club spring wheat at 85a90, the outside figures only for choice; winter dull at 100a112½.

BARLEY—125a185 for common, 135a160 for fair to extra.
RYE—70a75
OATS—40a43.
CORN—43a50.
POTATOES—56a62.
HIDES—6½a9 for green, 14a15 for dry.
PORK—nothing doing—nominally 9a9½.

Chicago Market.

CHICAGO, March 27.

The Produce Market is very inactive, and transactions are restrained within narrow limits.

Wheat is dull and unsettled. The scarcity of money in connection with the unfavorable aspect of the foreign market operates to deter buyers, and the range of offers falls considerably below the views of holders. Spring is nominal at 85, in store. Cargoes are freely offered at 90, for May delivery. A sale of 33,000 bushels was made at Henry a few days since for the St. Louis market at 85. Present appearances indicate that a larger proportion than usual of the produce which finds its natural outlet at this port, will this season seek a Southern market.

A sale of milling spring was made to-day to a Michigan dealer at 95c.

Corn is quiet, 40c is offered by the cargo for delivery in May, but we learn no transactions.

Oats command 35c in bags, and in store 33c.

Chances on Shipments to Liverpool via Montreal.

Mr. J. Rogerson, Commission Merchant, furnishes the Chicago *Democrat* with a detailed estimate of the returns from shipments of average flour and wheat to Liverpool, at present prices, rates of freight and exchange. He makes the duty and charges of all kinds at Liverpool on a barrel of flour, including storing, a month's storage, putting out, and insurance, 47c per barrel. Reckoning freight to Montreal at 80c, and all expenses counted, he carries the cost of a barrel of flour at the day of sale, up to $7,27, which involves a loss of 31c per bbl, if the flour cost $4,73 in Chicago.

On wheat, the programme shows better. He makes the Liverpool charges as before 12c per bushel of 60 lbs. Calling freight to Montreal 23c, and counting expenses of all kinds, he brings the cost up to $1,67, which would leave a profit of 12c per bushel, if the wheat cost $1,00 per bushel in Chicago.

THE ZIMMERMAN BANK.—A meeting of Managers from all the principal Banks of the Province was held in this city on Friday last, for the purpose of considering, among other things, the condition of the Zimmerman Bank. The Cashier of the Bank, together with one or two of Mr. Zimmerman's executors, were present, and gave every information. The examination was satisfactory, and it was resolved to accept the bills issued by the Bank. The intention, we believe, of the executors is to call in the outstanding bills, and by the time this is accomplished, the affairs of the deceased will have been more critically examined, and it will then probably be decided whether there will be a re-issue or not. In the meantime the bills are perfectly good, and will not be refused at any bank.—*Toronto Globe, March 24.*

Steamers and Propellers for the Season.

So far as arrangements are already made for the season of navigation, the following steamers and propellers will run in lines connecting with this port for the year:

Milwaukee and Chicago, and ports between:
Steamers *Planet* and *Traveller*, forming a night line.
Milwaukee and Two Rivers, and intermediate ports:
Steamer *Huron*.
Milwaukee and Green Bay:
Steamer *Arctic*.
Collingwood Line:
Steamers *Keystone State*, *Queen City*, *Buckeye State*, *Louisiana* and another not yet designated.
Lake Superior:
There will doubtless be a tri-weekly or semi-weekly line, but we have seen no appointments as yet. The *Lady Elgin* will be in this line, we presume.
American Transportation Co.:
Western Transportation Co.:
These two lines, having the same agency here, run, we believe, nineteen propellers to the upper lake ports. Five of these, the *Edith*, *Niagara*, *Allegany*, *Forest Queen*, and *Queen of the Lakes*, are designated for this port as a termination of their route, but the others land and take cargoes here according to the demands of business.
New York Central Line:
This line consists of the propellers *Fountain City*, *Galena*, *Dacotah*, *Mendota*, *Winona*, *Evergreen City*, *Cuyahoga*, and *Kenosha*, and touch at Cleveland for cargoes.
North Western Transportation Co.:
Consists of the propellers *Montgomery*, *Globe*, *Ontonagon*, *Adriatic*, *Ogontz*, *Wabash Valley*, and one other.
Northern Transportation C.; (Crawford & Chamberlain's Line)—runs to Oswego and Ogdensburgh:
We do not know how many of these boats are designated for the upper lakes—probably not less then eight. Among those which ran to this port last season were the *Wisconsin*, *Michigan*, *Ogdensburgh*, *Louisville* and *Prairie State*.
The Old Oswego Line:
Will consist of six first class propellers.
The People's Line:
Will run eight first class boats.
The Montreal Line:
We mentioned, a day or two since, that several Montreal firms were making arrangements to put on a line of propellers.

The above shows a total of say twelve steamers and sixty-two propellers which may be expected to visit our docks this season. A prospect for a lively time.

THE PROPELLER LOUISVILLE.—The Ogdensburgh *Journal* says: This vessel has now received her main and promenade decks, and is enclosed, and most of her machinery put in. The hurricane decks and saloons will be put on this week, and we have been informed by the gentleman who has charge of the work, that she will be ready to launch in a fortnight. The re-building has been most thorough. She has been newly kneed, diagonally braced, her upper works most substantially built, and her cabin will be commodious, elegant and fitted in the modern style, and equal to those of first class steamers. She will be a better boat than she was before the accident, one of the best of Crawford's line, and as good as any on the Lakes.

STEAMERS CONNECTING AT DETROIT.—The Detroit *Free Press* mentions the following steamers to run this season in regular lines from or connecting with that port:

Queen City, for Saginaw; Forest Queen and Michigan, for Green Bay. Sam Ward, Forester and Clifton, for Port Huron. Arrow and Dart, for Toledo. The Pearl and Gem, for Malden, Trenton, and Wyandotte. The Bay City, for Sandusky. The Ocean, May Queen, and a new steamer now being built at Buffalo, for Cleveland.—The Magnet, a fine new steamer now lying at Trenton dock, is to run on the Saginaw river this summer. She is a model of a river boat, and is expected to make extra time. Her engine, which is entirely new, is 600 horse power.

STEAM TUG FOR THE SAULT RIVER.—The steam tug *Eclipse* is to be put on the St Mary's river this spring to tow vessels through into Lake Superior.

STEAMER HURON SUNK.—The Clement Steamboat Company's steamer Huron seems to have commenced her season with a run of ill luck and disaster, certainly not to be predicted from or predicable upon her sterling qualities and excellencies. But a few days since we chronicled her narrow escape from total destruction by fire at Milwaukee, and now she lies sunk in our river.

She had just taken in her cargo for Two Rivers and intermediate ports on Thursday evening, and was backing down the river about 7 o'clock, when she ran her stern on the sunken and submerged wreck of the schooner McKay, and sunk in twelve feet of water, where she now lies near the dock of Alfred Smith's coalyard.

The Huron's cargo was but a light one, and was made up of general merchandise and provisions, much of which will be got out uninjured. She will be raised without great expense and will soon be in running order again.

There will be work for the lawyers to decide where the expenses are to light, upon the Huron's owners, or those of the McKay, which we believe was owned by one of our lumber firms.—*Chicago Press.*

CLEARED.—The tug *McQueen*, Capt. John Prendeville, clears to day to go to the relief of the Lake Navigation Company's schooner *Hibbard*, which went ashore last Fall, about six miles North of Racine.—*Chicago Tribune.*

KEEPS CONSTANTLY ON HAND a large assortment of mahogany, black walnut, and other wood Coffins, together with Fisk's Metallic Burial Cases.

I have the agency for the sale of Crane's Metallic Burial Casket, an entirely new patent, which for beauty of style and finish cannot be surpassed. I ask attention to them, as suited to the wants and tastes of a very considerable class of the community, which the style and arrangement of Fisk's case do not meet. This casket permits a view of the entire body after it is enclosed, the top being composed of a beautiful French plate glass, sufficiently strong to resist any internal or external pressure, and a covering of a beautiful, chaste metallic plate.

The office of the Forest Home Cemetery Company is at my place, where I have the plats of the grounds. I am always ready to accompany patrons to the Cemetery to select lots or places for burial, and can be found at my place of business day or night. Coffin trimmings of all kinds for sale. mar10e949

POLICE COURT, MARCH 28.

BEFORE CLINTON WALWORTH, POLICE JUSTICE.

Michael Lynch, disorderly, fined $5.
M. Piatt, drunk, fined $1.
Peter Gingigan, drunk, fined $1.

John G. Saxe is Coming.—We are to have SAXE *to-morrow* at the *Albany*, and then look out for fun. Of course, the large hall will be filled, for probably no man in America is so well and widely known, as a humorous poet, as JOHN G. SAXE. Our readers, no doubt, recollect his reply to the Troy Association, who were disposed to abuse him for failing them once when he was snowed in on a railroad. SAXE told them 'twas reasonable to abuse him, for he had every motive to fulfil his engagement except a *loco-motive*. They forgave him.

The Great Need of our City.—What our thriving and expanding city now specially needs is an honest, efficient and intelligent administration. Reform in our municipal affairs has become an imperative necessity. We want men elected to the different City and Ward offices, who will apply themselves vigorously and faithfully, to the public service, and not abuse their trusts to subserve their own private interests. We want a Mayor who will see to it that the Ordinances are enforced and that the different Corporation Officers do their duty. We want Aldermen who will pay some little attention to the needs of their respective Wards and keep them in decent order. We want a Comptroller, of approved integrity and tried business talent, who will watch vigilantly over the Treasury and keep off all pickers and stealers. We have plenty of men in our city who will fill the various municipal officers usefully and creditably; and it is high time that our tax-payers should insist that in the selection of our city rulers, some regard be paid to character and capacity.

FOURTH WARD NOMINATIONS.—A "free and easy" caucus to nominate candidates for Aldermen, &c., was held in the Fourth Ward, Saturday evening. Between eight and hundred votes were polled, and the following ticket, made up indiscriminately of Democrats and Republicans, was nominated:

Alderman for 2 years—Jonathan Taylor.
Alderman for 1 year—John Plankinton.
Justice of the Peace—D. L. Deyo.
Assessor—D. Schultz.
R. R. Commissioner—John Borcomb.
Constable—Edward Mallon.

This, in the main, is a very good ticket. The candidates for Aldermen are useful members of the present Board.

FIRST WARD NOMINATIONS.—The Democratic Caucus in the First Ward, Saturday afternoon, resulted in the choice of the following ticket:

Alderman for 2 years—Jackson Hadley.
Alderman for 1 year—John Nichol.
Justice of the Peace—G. A. McGarrigle.
Assessor—Stephen Hoff.
R. R. Commissioner—O. B. Hopkins.
Constable—John Scheffel.

Mr. HADLEY was re-nominated by 259 votes against 171. He was fairly entitled to the compliment from his political friends, for besides being an active and zealous partisan, he is indisputably the most efficient and hardest working member in the present Council.

CITY COMPTROLLER.—Mr. W. J. WHALING, we regret to learn, declines to be a candidate for City Comptroller. The name of WILLIAM A. PRENTISS has been suggested for this office. The suggestion could not be improved upon. Mr. Prentiss' long residence in our city, his intimate acquaintance with our municipal affairs, his conceded business talents and unquestioned integrity, all combine to fit him admirably for the post. Can we not have such a man for City Comptroller?

A QUID PRO QUO.—A fair exchange is all that can be expected of reasonable men, and so the Democracy of the Third Ward, who were enabled at their caucus, to poll 1100 votes in four hours, by the assistance of their friends in the Fourth and Fifth Wards, propose to return the compliment by going over to vote at the polls of the latter. A beautiful expression of the will of the people, our Democratic friends are getting.

JAIL BREAKER CAUGHT.—A man named Henry Smith *alias* Forney, a German, who broke the Racine Jail on the 21st of March, was arrested in this city on Saturday by Policemen Beasley and Just, on Walker's Point. There was a reward of $25,00 for his apprehension. Smith was charged with robbery in Racine. After his escape he came to this city and had got employment with a shoemaker named Fisherdick; he was taken to Jail, to be sent to Racine to-day.

REMOVAL.—The Wisconsin Marine and Fire Insurance Company Bank is to leave its old quarters today, for a location in the North East corner of "the Albany." The new Banking room is spacious, well lighted and handsomely fitted up. The building heretofore occupied by the Bank is to be pulled down to make room for a new and elegant block.

BADGER IRON WORKS.—Messrs. MENZEL, CUMMINGS & GOODRICH, in their card this morning, do not say half as much in their own favor, as all who have ever done business with them will say for them. We have tried the quality of their work and know it to be of the best. Their facilities are such now that they are prepared to fill all orders, promptly and in unexceptionable style.

BANK NOTE LIST.—Messrs. TOWNSEND, BEAN & BURLOCK issue their semi-monthly Bank Note List *this* morning. Copies may be obtained at their Banking Office, No. 205 East Water Street.

FOR THE LADIES.—Mr. W. LACY, on Mason Street, opposite the Walker House, invites the attention of the Ladies to his stock of Bonnets, Flowers and Millinery Goods.

INFORMATION WANTED.—See advertisement of Mr. George Miller, describing a missing son, of whose safety and whereabouts he is most anxious to hear.

TAKE HEED.—At the Massasoit House, Chicago, may be obtained until May, Old Dr. James' wonderful and celebrated extract of Cannibis Indica. His son-in-law, Dr. Thomas Tilton will supply you with either personally, or by Express. It is a sure and speedy cure of the worst cases of consumption, bronchitis, asthma, nervous debility, coughs, colds and sore throats. We know this to be a fact. Try it and live.

P. S.—By addressing Dr. Tilton, a note through the Chicago Post Office, inclosing four stamps (12 cents) a recipe will be sent in return, free of charge, to any part of the Union. DR. TILTON,
mar16-e359-1m. Massasoit House, Chicago.

CARD TO THE LADIES.—Among the numerous remedies that have made their appearance in different parts of the world for the benefit of the female portion of community, none have been so thoroughly tested, so universally used, and given such perfect satisfaction as Herrick's Sugar Coated Pills and Kid Plasters. Their use subjects the patient to no inconvenience, and costs but little to use them. Pills 25c, Plasters 18¾c.

A CARD.

MESSRS. CUMMINGS & GOODRICH of the Badger Iron Works, and Mr. Gregor Menzel, (formerly of the firm of Menzel, Stone & Co.,) of this city, having formed a co-partnership under the name and style of Menzel, Cummings & Goodrich, for the purpose of manufacturing Steam Engines and all kinds of Machinery usually made in such establishments; and having purchased the splendid sett of patterns and tools, heretofore used with such complete success, by Messrs. Menzel, Stone & Co., in the Steam Engine business, which enables them to take contracts for furnishing all kinds of machinery in their line of business. And they would further say, that their patterns were made from the latest and most approved styles including all the latest real improvements of the Steam Engine.

Their Tools are suitable for Planing, Boring, Turning, and Screw cutting of all sizes, from the largest to the smallest work.

They are also prepared to make castings for Machinery of all sizes and descriptions.

Their Steam Boiler, Sheet Iron and Blacksmith work will be carried on as heretofore.

Plans, specifications and estimates furnished for every description of Engines, Boilers, and all other kinds of Machinery.

They would return thanks to their numerous friends and customers for past favors; and trust they shall merit a continuation of the same to the new firm at the Badger Iron Works, corner of Main, Chicago and Milwaukee Streets.

Notice Extraordinary!

WE WOULD NOTIFY the merchants and the public generally in the Western States that the Match Manufactory of R. W. PIERCE & CO., Milwaukee, Wis., is in full and successful operation, notwithstanding the declarations of a match concern in Detroit, Mich., that our establishment had burned down—that R. W. Pierce & Co. had failed—that no more R. W. PIERCE's matches would be seen in market, &c. &c. We are well aware that all such assertions will in due time recoil with bad effect upon the party who originated them, and what we wish is, that the public should be set right in the matter. We now have facilities for manufacturing matches as cheap, or cheaper than any other establishment in the West, and as to the quality, we will leave those who have used them for the last thirteen years to be the judges, and will only remark that our business has increased from less than $1000, in 1844, to more than $50,000, in 1856.

All orders for matches promptly filled.

KILBOURN CITY.

WE have for sale a large number of desirable Lots in this flourishing city. Of all the new places which are being built on the lines of the different Railroads running from this place, there is not one which offers as many advantages to the settler as this. Beautifully located on the banks of the Wisconsin River, with a fine Water Power, and midway between Milwaukee and the Mississippi, it presents inducements to the man of business which cannot be equalled elsewhere. The population is increasing with enormous rapidity, the Railroad will reach it in three months hence, and give an impetus to its trade, which in a single year will quadruple the value of the real estate. Lots can now be purchased at a low price.

SPRING now is fairly open and the prospect before us is busy times. We have our office all ready for the various operations. Our plans this year will vary somewhat from the ordinary way in which Real Estate has been offered.

We propose to have public sales of Real Estate every week, commencing in the second week in April. Our first sale will be on April the 14th, at which time we will offer Two Hundred Lots in the new addition of J. L. Pearce, Esq., adjacent to Sherman's addition, 6th Ward.

Mr. Pearce has selected choice and high elevated land for this addition, which overlooks our entire city. You have a beautiful view of our Lake Michigan and Harbor, and various Railroad depots. It is in a healthy part of our city, densely populated by our deserving and enterprising German friends, and from the general improvements going on in this part of the addition to our city, it will and must be valuable and desirable property. As a proof of this fact, let any one look back five years to Sherman's addition, and look at it now. In it you will find enterprising and wealthy merchants, rows of stores. Property has advanced one thousand per cent and is still on the rise!

Mr. Pearce, in his addition, has laid his lots off good size, 60 by 150 feet. He has also gone to much expense, and has had the streets all laid off. Has rehaid the Green Bay Planks third street, and is now in better order than it has been for several years.

In offering this property of Mr. Pearce, it is not so much for raising money; he proposes to sell the lots in his addition on such terms that every person can secure them a home, and when a home is secure once it can never be taken away.

We have at our office plats of Pearce's addition, which will be distributed, and all who want one of the maps, please call and get one.

We will give, in a few days, notice of other public sales which we are getting up, and would say to all Real Estate owners to please call at our office, and any arrangements they should wish to make with us will be made on fair terms.

La Crosse Railroad depot is one mile from it, on Third street, which is doing the most extensive business of any Railroad in this country, and only ten minutes walk from Pearce's addition.

FINNEY YOUNGS' PATENT SAWING MACHINES.

PATENTED JANUARY 30, 1855—REISSUED OCT. 2, 1855.

Milwaukee, Sept. 13th, 1856.

THIS IS TO CERTIFY, that we purchased the first Sliding Mill built by Finney Youngs, of Milwaukee, and that we have run the same Machine at our Mills at Bay de Noque, (Mich.) the past two years, and that it has exceeded our expectations. We have no hesitation in saying that it will cut Two Thousand Feet, superficial measure, per hour, and upon a trial of twelve hours we cut 32,181 feet, superficial measure, of Flooring and Siding.
N. LUDINGTON & CO

This is to Certify, That we have used one of Finney Youngs' Patent Sawing Machines or Siding Mills, for about one year, and find it the most perfect Machine we have ever seen. It is easily kept in order. We have expended but a shilling for repairs on it as yet.

We have never seen any Machine of the kind that will in any way compare with this. It will cut nearly or quite double the amount of Lumber in the same time of any other mill we have ever examined.

The man that runs it has offered to bet one thousand dollars he could saw in this Sliding Mill Fifty Thousand Feet of Lumber within twenty-four hours—the Lumber sawed in this mill is of universally even thickness, which is not the case with any other we have seen.

We really would not exchange our Machine for any other ten machines of any other Patent we ever saw, for our own use.
BRAND & CO.
Oshkosh, August 16th, 1856

Algoma, August 29th, 1856.

Messrs. Finney Youngs & Co.:

Gents—We have in use, in our mill at Pensaukie, Green Bay, two of your Sliding Machines, and find them to answer our expectations in all respects. We refer them to any we have ever used, or of which we have any knowledge. From the result of our superintendent, we learn that one of your Machines cut during the week ending July 12th, 143,975 feet of Lumber—thirty flooring and siding—being about 20,000 feet every twenty-four hours. For rapidity and smoothness of sawing, as well as durability of construction, we think it cannot be equaled by any other Machine now in use.
Yours, truly,
F. D. GARDINER & CO.

ELECTION NOTICE.

Federal Appointments.

WASHINGTON, March 27.

Ex-Congressman Denver, of California, has been appointed Commissioner of Indian Affairs.

Comptroller Whittlesey's resignation takes effect immediately on the settlement of Cormick & Randall's Pacific Coast route claim, for four million dollars.

Ex-Secretary Marcy has prepared a memorial in answer to the reclamation of the British and French Governments for the Greytown bombardment.

Correspondence of the New York Daily *Times*: Walker leaves this city for the North, to-morrow night. He has accepted the post of Governor of Kansas. He is intrusted with plenipotentiary powers to the full extent that can be bestowed under the Constitution, and will be compelled to wait no instructions from Washington in case of emergency.

Later from California.

NEW YORK, March 28.

The steamship Illinois arrived at 8 o'clock this A. M., with California dates of the 5th, and nearly $100,000 in specie, connected with the Golden Age.

The latter passed March 10th, off Cape Corientes, steamer Sonora, bound up.

The steamer Panama from San Juan, arrived at Panama, with twenty-five deserters from Walker.

They were in a most destitute condition; their passage to the United States was paid by the Costa Rican Government; one hundred left in the Grenada.

The number remaining came in the Illinois left Aspinwall March 19.

The Costa Rican papers state that 500 troops are to be added to the allied forces. General Cora would march with 1500 on Rivas, and 1000 would march against San Juan del Sur. The intention is to surround Walker with 6000 troops. Nothing later from Walker's position; his case is considered desperate.

At the latest dates from Bogota the propositions of Mr. Morse, our special envoy to Grenada, were under secret consideration. There seemed to be but little chance of an amicable arrangement; the tone of the press, and a majority of Congress is of the bitterest opposition. The publication in Eltempo of what purported to be Mr. Morse's proposition had created great excitement on the Isthmus. The natives are anxious that the Government will refuse the proposition, although they expect the result will be the military occupation of the Isthmus by the United States.

Some of the deserters from Walker state that his troops had unanimously refused to leave Rivas to fight, but were willing to defend their position.

California news generally unimportant. Markets dull at former prices. Flour $10 with some speculative movement.

Mining news meager owing to a heavy flood throughout the State.

Ned McGowan, the vigilance committee exile, had returned to Sacramento and demanded trial. A resolution to fix his place of trial at Sacramento was under debate.

A special election for Senator from San Francisco, resulted in the election of the vigilance committee candidate.

The Supreme Court of California has decided that the Legislature has no authority to appropriate money to pay interest on the State debt, and that the Court will enjoin against levying a tax for that purpose.

The Senate had passed a resolution that the State honor required the payment of the State debt.

A resolution submitting the proposition to the people was lost.

Mr. Bates, late State Treasurer, indicted for felony—trial commenced the day the steamer left. The deficiency in his accounts is $44,000.

Estelle, keeper of the State Prison, was reported by the Legislative Committee, unworthy of his office, for various gross misdemeanors.

G. F. Waldron, book-keeper of Wells, Fargo & Co., had been arrested for embezzling $2,000.

Advices from Oregon and Sandwich Islands, unimportant.

Fire.

CINCINNATI, March 28.

A despatch from Memphis, dated 27th, says that the town of Jackson Port, Arkansas, has been nearly destroyed by fire. The entire business portion of the town is consumed. Amount of loss not known.

New Orleans Market.

New Orleans, March 27.

Sugar closed firm at 10¼a10 1-2, Molasses 57. Breadstuffs generally quiet, coffee quiet at 11¼a11 1-2 for prime Rio—sales of the week 4000 bags, receipts 20,350 bags, stock on hand 80,000 bags. Other articles unchanged.

POLICE COURT, MARCH 28.

BEFORE CLINTON WALWORTH, POLICE JUSTICE.

Michael Lynch, disorderly, fined $5.
M. Platt, drunk, fined $1.
Peter Gingigan, drunk, fined $1.

John G. Saxe is Coming.

We are to have Saxe *to-morrow* at the *Albany*, and then look out for fun. Of course, the large hall will be filled, for probably no man in America is so well and widely known, as a humorous poet, as JOHN G. SAXE. Our readers, no doubt, recollect his reply to the Troy Association, who were disposed to abuse him for failing them once when he was snowed in on a railroad. SAXE told them 'twas reasonable to abuse him, for he had every motive to fulfill his engagement except a *loco-motive*. They forgave him.

The Great Need of our City.

What our thriving and expanding city now specially needs is an honest, efficient and intelligent administration. Reform in our municipal affairs has become an imperative necessity. We want men elected to the different City and Ward offices, who will apply themselves vigorously and faithfully, to the public service, and not abuse their trusts to subserve their own private interests. We want a Mayor who will see to it that the Ordinances are enforced and that the different Corporation Officers do their duty. We want Aldermen who will pay some little attention to the needs of their respective Wards and keep them in decent order. We want a Comptroller, of approved integrity and tried business talent, who will watch vigilantly over the Treasury and keep off all pickers and stealers. We have plenty of men in our city who will fill the various municipal officers usefully and creditably; and it is high time that our tax-payers should insist that in the selection of our city rulers, some regard be paid to character and capacity.

FOURTH WARD NOMINATIONS.—A "free and easy" caucus to nominate candidates for Aldermen, &c., was held in the Fourth Ward, Saturday evening. Between eight and hundred votes were polled, and the following ticket, made up indiscriminately of Democrats and Republicans, was nominated:

Alderman for 2 years—Jonathan Taylor.
Alderman for 1 year—John Plankinton.
Justice of the Peace—D. L. Deyo.
Assessor—D. Schultz.
R. R. Commissioner—John Bercomb.
Constable—Edward Mallon.

This, in the main, is a very good ticket. The candidates for Aldermen are useful members of the present Board.

FIRST WARD NOMINATIONS.—The Democratic Caucus in the First Ward, Saturday afternoon, resulted in the choice of the following ticket:

Alderman for 2 years—Jackson Hadley.
Alderman for 1 year—John Nichol.
Justice of the Peace—G. A. McGarrigle.
Assessor—Stephen Hoff.
R. R. Commissioner—O. D. Hopkins.
Constable—John Scheffel.

Mr. HADLEY was re-nominated by 209 votes against 171. He was fairly entitled to the compliment from his political friends, for besides being an active and zealous partisan, he is indisputably the most efficient and hardest working member in the present Council.

CITY COMPTROLLER.—Mr. W. J. WHALING, we regret to learn, declines to be a candidate for City Comptroller. The name of WILLIAM A. PRENTISS has been suggested for this office. The suggestion could not be improved upon. Mr. Prentiss' long residence in our city, his intimate acquaintance with our municipal affairs, his conceded business talents and unquestioned integrity, all combine to fit him admirably for the post. Can we not have such a man for City Comptroller?

A QUID PRO QUO.—A fair exchange is all that can be expected of reasonable men, and so the Democracy of the Third Ward, who were enabled at their caucus, to poll 1100 votes in four hours, by the assistance of their friends in the Fourth and Fifth Wards, propose to return the compliment by going over to vote at the polls of the latter. A beautiful expression of the will of the people, our Democratic friends are getting.

JAIL BREAKER CAUGHT.—A man named Henry Smith *alias* Forney, a German, who broke the Racine Jail on the 21st of March, was arrested in this city on Saturday by Policemen Bensley and Just, on Walker's Point. There was a reward of $25,00 for his apprehension. Smith was charged with robbery in Racine. After his escape he came to this city and had got employment with a shoemaker named Fisherdick; he was taken to Jail, to be sent to Racine to-day.

REMOVAL.—The Wisconsin Marine and Fire Insurance Company Bank is to leave its old quarters to-day, for a location in the North East corner of "the Albany." The new Banking room is spacious, well lighted and handsomely fitted up. The building heretofore occupied by the Bank is to be pulled down to make room for a new and elegant block.

BADGER IRON WORKS.—Messrs. MENZEL, CUMMINGS & GOODRICH, in their card this morning, do not say half as much in their own favor, as all who have ever done business with them will say for them. We have tried the quality of their work and know it to be of the best. Their facilities are such now that they are prepared to fill all orders, promptly and in unexceptionable style.

BANK NOTE LIST.—Messrs. TOWNSEND, BEAN & BURLOCK issue their semi-monthly Bank Note List *this* morning. Copies may be obtained at their Banking Office, No. 205 East Water Street.

FOR THE LADIES.—Mr. W. LACY, on Mason Street, opposite the Walker House, invites the attention of the Ladies to his stock of Bonnets, Flowers and Millinery Goods.

INFORMATION WANTED.—See advertisement of Mr. George Miller, describing a missing son, of whose safety and whereabouts he is most anxious to hear.

TAKE HEED.—At the Massasoit House, Chicago, may be obtained until May, Old Dr. James' wonderful and celebrated extract of Carnibis Indica. His son-in-law, Dr. Thomas Tilton will supply you with either personally, or by Express. It is a sure and speedy cure of the worst cases of consumption, bronchitis, asthma, nervous debility, coughs, colds and sore throats. We know this to be a fact.—Try it and live.

P. S.—By addressing Dr. Tilton a note through the Chicago Post Office, inclosing four stamps (12 cents) a recipe will be sent in return, free of charge, to any part of the Union. DR. TILTON, Massasoit House, Chicago.

A CARD.

MESSRS. CUMMINGS & GOODRICH of the Badger Iron Works, and Mr. Gregor Menzel, (formerly of the firm of Menzel, Stone & Co.,) of this city, having formed a co-partnership under the name and style of Menzel, Cummings & Goodrich, for the purpose of manufacturing Steam Engines and all kinds of Machinery usually made in such establishments; and having purchased the splendid sett of patterns and tools, heretofore used with such complete success, by Messrs. Menzel, Stone & Co., in the Steam Engine business, which enables them to take contracts for furnishing all kinds of machinery in their line of business. And they would further say, that their patterns were made from the latest and most approved styles including all the latest real improvements of the Steam Engine.

Their Tools are suitable for Planing, Boring, Turning, and Screw cutting of all sizes, from the largest to the smallest work.

They are also, prepared to make castings for Machinery of all sizes and descriptions.

Their Steam Boiler, Sheet Iron and Blacksmith work will be carried on as heretofore.

Plans, specifications and estimates furnished for every description of Engines, Boilers, and all other kinds of Machinery.

They would return thanks to their numerous friends and customers for past favors; and trust they shall merit a continuation of the same to the new firm at the Badger Iron Works, corner of Main, Chicago and Milwaukee Streets.

Notice Extraordinary!

WE WOULD NOTIFY the merchants and the public generally in the Western States that the Match Manufactory of R. W. PIERCE & CO., Milwaukee, Wis., is in full and successful operation, notwithstanding the declarations of a match concern in Detroit, Mich., that our establishment had burned down—that R. W. Pierce & Co. had failed—that no more R. W. Pierce's matches would be seen in market, &c. &c. We are well aware that all such assertions will in due time recoil with bad effect upon the party who originated them, and what we wish is, that the public should be set right in the matter. We now have facilities for manufacturing matches as cheap, or cheaper than any other establishment in the West, and as to the quality, we will leave those who have used them for the last thirteen years to be the judges, and will only remark that our business has increased from less than $1000, in 1844, to more than $50,000, in 1856.

All orders for matches promptly filled.

KILBOURN CITY.

WE have for sale a large number of desirable Lots in this flourishing city. Of all the new places which are being built on the lines of the different Railroads running from this place, there is not one which offers as many advantages to the settler as this. Beautifully located on the banks of the Wisconsin River, with a fine Water Power, and midway between Milwaukee and the Mississippi, it presents inducements to the man of business which cannot be equalled elsewhere. The population is increasing with enormous rapidity, the Railroad will reach it in three months hence, and give an impetus to its trade, which in a single year will quadruple the value of the real estate. Lots can now be purchased at a low price.

Albany Buildings, Michigan Street

SPRING now is fairly open and the prospect before us is busy times. We have our office all ready for the various operations. Our plans this year will vary somewhat from the ordinary way in which Real Estate has been offered.

We propose to have public sales of Real Estate every week, commencing in the second week in April. Our first sale will be on April the 14th, at which time we will offer Two Hundred Lots in the new addition of J. L. Pearce, Esq., adjacent to Sherman's addition, 6th Ward.

Mr. Pearce has selected choice and high elevated land for this addition, which overlooks our entire city. You have a beautiful view of our Lake Michigan and Harbor, and various Railroad Depots. It is in a healthy part of our city, densely populated by our deserving and enterprising German friends, and from the general improvements going on in this part of the addition to our city, it will and must be valuable and desirable property. As a proof of this fact, let any one look back five years to Sherman's addition, and look at it now. In it you will find enterprising and wealthy merchants, rows of stores, Property has advanced one thousand per cent and is still on the rise!

Mr. Pearce, in his addition, has laid his lots off good size, 50 by 150 feet. He has also gone to much expense, and has had the streets all laid off. Has rolaid the Green Bay Planks third street, and is now in better order than it has been for several years.

In offering this property of Mr. Pearce, it is not so much for raising money; he proposes to sell the lots in his addition on such terms that every person can secure them a home, and when a home is secure once it can never be taken away.

We have at our office plats of Pearce's addition, which will be distributed, and all who want one of the maps, please call and get one.

We will give, in a few days, notice of other public sales which we are getting up, and would say to all Real Estate owners to please call at our office, and any arrangements they should wish to make with us can be made on fair terms.

La Crosse Railroad depot is one mile from it, on Third street, which is doing the most extensive business of any Railroad in this country, and only ten minutes walk from Pearce's addition.

FINNEY YOUNGS' PATENT SAWING MACHINES.

PATENTED JANUARY 30, 1855.—REISSUED OCT. 2, 1855.

THIS IS TO CERTIFY, That we purchased the first Siding Mill built by Finney Youngs, of Milwaukee, and that we have run the same Machine at our Mills at Day de Noque, (Mich.) the past two years, and that it has exceeded our expectation. We have no hesitation in saying that it will cut Two Thousand Feet, superficial measure, per hour, and upon a trial of twelve hours we cut 32,184 feet, superficial measure, of Flooring and Siding.

Milwaukee, Sept. 18th, 1856. N. LUDINGTON & CO

This is to Certify, That we have used one of Finney Youngs' Patent Sawing Machines or Siding Mil's, for about one year, and find it the most perfect Machine we have ever seen. It is easily kept in order. We have expended but a shilling for repairs on it as yet.

We have never seen any Machine of the kind that will in any way compare with this. It will cut nearly or quite double the amount of Lumber in the same time of any other mill we have ever examined.

The man that runs it has offered to bet one thousand dollars he could saw in this Siding Mill Fifty Thousand Feet of Lumber within twenty-four hours—The Lumber sawed in this mill is of universally even thickness, which is not the case with any other we have seen.

We really would not exchange our Machine for any other ten machines of any other Patent we ever saw, for our own use.

Algoma, August 30th, 1856. BRANDS & CO.

Messrs. FINNEY YOUNGS & CO.: CHICAGO, August 16th, 1856

Gents—We have in use, in our mill at Pensaukie, Green Bay, two of your Siding Machines, and find them to answer our expectations in all respects. We prefer them to any we have ever used, or of which we have any knowledge. From the report of our Superintendent, we learn that one of your Machines cut during the week ending July 12th, 155,558 feet of Lumber—mostly fencing and flooring—being about 26,000 feet every twenty-four hours. For rapidity and smoothness of sawing, as well as durability of construction, we think it cannot be equalled by any other Machine now in use.

Yours, truly, F. B. GARDINER & CO.

ELECTION NOTICE.

New York, March, 28.

An Aspinwall letter says that Commissioner Morse was expected there by the next steamer from Carthagena, as his propositions to the new Grenada government would not be accepted.

St. Louis, March, 28.

The Springfield Illinois Journal, states that nearly one million of the circulation of the stock banks of Illinois, has been returned to the auditor and cancellor, since the last report to the Legislature. This reduces the circulation of the banks of the State to about five and a half millions. The amount issued on a stock basis being about six and a half million.

PORTLAND, March 28.

The steamer North America sailed from here at 2 P. M. to-day for Liverpool.

CINCINNATI, March 28.

The cause of the explosion at St. Louis last night was the accidental discharge of a pistol into a canister of powder. Three persons were killed; one severely injured and several slightly. The stores were entirely destroyed; loss probably upwards of $50,000.

A large fire occurred at Liberty, Mo., about a week ago. Loss $25,000.

THREE P. M. REPORT.

Federal Appointments.

WASHINGTON, March 27.

Ex-Congressman Denver, of California, has been appointed Commissioner of Indian Affairs.

Comptroller Whittlesey's resignation takes effect immediately on the settlement of Cornick & Randall's Pacific Coast route claim, for four million dollars.

Ex-Secretary Marcy has prepared a memorial in answer to the reclamation of the British and French Governments for the Greytown bombardment.

Correspondence of the New York Daily *Times*: Walker leaves this city for the North, to-morrow night. He has accepted the post of Governor of Kansas. He is intrusted with plenipotentiary powers to the full extent that can be bestowed under the Constitution, and will be compelled to wait no instructions from Washington in case of emergency.

Later from California.

NEW YORK, March 28.

The steamship Illinois arrived at 8 o'clock this A. M., with California dates of the 5th, and nearly $100,000 in specie, connected with the Golden Age.

The latter passed March 10th, off Cape Corrientes, steamer Sonora, bound up.

The steamer Panama from San Juan, arrived at Panama, with twenty-five deserters from Walker.

They were in a most destitute condition; their passage to the United States was paid by the Costa Rican Government; one hundred left in the Grenada.

The number remaining came in the Illinois left Aspinwall March 19.

The Costa Rican papers state that 800 troops are to be added to the allied forces. General Cora would march with 1500 on Rivas, and 1000 would march against San Juan del Sur. The intention is to surround Walker with 6000 troops. Nothing later from Walker's position; his case is considered desperate.

At the latest dates from Bogota the propositions of Mr. Morse, our special envoy to Grenada, were under secret consideration. There seemed to be but little chance of an amicable arrangement; the tone of the press, and a majority of Congress is of the bitterest opposition. The publication in Eltempo of what purported to be Mr. Morse's proposition had created great excitement on the Isthmus. The natives are anxious that the Government will refuse the proposition, although they expect the result will be the military occupation of the Isthmus by the United States.

Some of the deserters from Walker state that his troops had unanimously refused to leave Rivas to fight, but were willing to defend their position.

California news generally unimportant. Markets dull at former prices. Flour $10 with some speculative movement.

Mining news meager owing to a heavy flood throughout the State.

Ned McGowan, the vigilance committee exile, had returned to Sacramento and demanded trial. A resolution to fix his place of trial at Sacramento was under debate.

A special election for Senator from San Francisco, resulted in the election of the vigilance committee candidate.

The Supreme Court of California has decided that the Legislature has no authority to appropriate money to pay interest on the State debt, and that the Court will enjoin against levying a tax for that purpose.

The Senate had passed a resolution that the State honor required the payment of the State debt.

A resolution submitting the proposition to the people was lost.

Mr. Bates, late State Treasurer, indicted for felony—trial commenced the day the steamer left. The deficiency in his accounts is $24,000.

Estelle, keeper of the State Prison, was reported by the Legislative Committee, unworthy of his office, for various gross misdemeanors.

G. F. Waldron, book-keeper of Wells, Fargo & Co., had been arrested for embezzling $2,000.

Advices from Oregon and Sandwich Islands, unimportant.

Fire.

CINCINNATI, March 28.

A despatch from Memphis, dated 27th, says that the town of Jackson Port, Arkansas, has been nearly destroyed by fire. The entire business portion of the town is consumed. Amount of loss not known.

New Orleans Market.

New Orleans, March 27.

Sugar closed firm at 10½a10 1-2, Molasses 57. Breadstuffs generally quiet, coffee quiet at 11¼a11 1-2 for primo Rio—sales of the week 4000 bags, receipts 20,350 bags, stock on hand 89,000 bags. Other articles unchanged.

PAPER HANGERS.

State of Wisconsin, Milwaukee County Court—In Probate.

In the matter of the estate of Tones Christopherson.

IT APPEARING to the satisfaction of this Court, by the petition of Karan Christopherson, administratrix on the estate of Tones Christopherson, deceased, that there is not sufficient personal estate in the hand of the said administratrix to pay the debts outstanding against the said deceased, and the expenses of administration, and it is necessary to sell all the real estate of the said deceased for the payment of said debts, it is therefore ordered that all persons interested in the said estate appear before the undersigned, Judge of the County Court for said County, at his office in the city of Milwaukee, on the 27th day of April, 1857, at 10 o'clock A. M., to show cause, if any they have, why license should not be granted to the said administratrix to sell of the real estate of the said deceased and pay such debts.

And it is further ordered that a copy of this order be published in the Milwaukee Sentinel, a newspaper printed in said city, for at least four successive weeks previous to the day of hearing the said application.

Dated this 16th day of March, 1857.

INSTRUCTION.

SALOM'S MERCANTILE COLLEGE!

A Perpetual Ticket for $25!

GENTLEMEN desirous of acquiring a thorough Mercantile Education, are assured that the advantages presented at this institution are unsurpassed.

The Principal takes this opportunity to acknowledge the courtesy of several of the most distinguished Shipping and Jobbing Houses in the East, who recently allowed him to examine their books, besides explaining many original plans for economizing labor, which, adopted as in some instances after the experience of half a century, may be justly designated the *ne plus ultra* of the art.

These advantages, grafted upon Mr. SALOM'S long practical experience in a variety of Counting Houses, have enabled him to elaborate a novel and valuable series of transactions, introducing all the great heads and ramifications of mercantile routine to be actually developed by the student. A perpetual ticket confers the privilege of instruction in Book-Keeping at all times, as well as tuition in Writing, Mercantile Calculations, Law, Correspondence Forms, &c.

The Surveying and Mathematical department is in progress during the day and evening.

LESSONS IN Foreign Languages.

MR. AND MRS. L. S. B. DE CRETY, from PARIS, for four years past instructors in foreign languages in Milwaukee, have the honor to inform the public that they will form classes in the French, Italian and Spanish Languages on the 1st of September next. The course of instruction will be according to the age and intelligence of the pupils, and the classes kept entirely separate, their house being arranged with that view.

Gentlemen and ladies who begin to speak either of these languages, can receive lessons in Reading and Conversation, Mr. De Crety furnishing books of the best French authors. Those too wishing to learn vocal music in either of those languages, will find a competent music teacher in the establishment.

The hours of instruction will be from 8 to 11 o'clock A. M., and from 2 to 5 P. M.. And in the evening from half past 6 to 8, for conversation.

Mr. DE CRETY will also give lessons in French, Spanish and Italian, at his office, to gentlemen only, from 7 to 10 o'clock in the evening, as also lessons in Fencing, the use of the Sword, and all military exercises. Persons of delicate constitution and feeble temperament, as also those confined to their offices and engaged in sedentary pursuits, will derive from these exercises, improvement in their health, acquire strength in their limbs and find an agreeable recreation.

Mr. De Crety will also form similar classes for children, from 10 to 15 years old, at his house, or office, as parents may prefer. Fathers and mothers who desire to see their children strong, active and robust, can judge for themselves, after a few weeks trial, as to the effect of these different exercises upon their health.

The continued patronage of the public is respectfully solicited.

To MERCHANTS.—Mr. DE CRETY will take charge of French correspondence to all the principal cities of France and will procure all Price Currents that they may want.

Every Man his own Miller.

PORTABLE CAST IRON GRAIN MILL.

Young America Improved and Perfected.

THE above mill was patented by Charles Leavett, of Ill., Feb. 27th, 1855. This mill took the first premium at the Ohio State Fair, 1855, over all other mills, and during the fairs of the fall of 1856, the first premiums over many others in the State Fairs of Ohio, New York, Tennessee, Michigan and Minnesota, also, at the County Fairs of the following Counties of Ohio and Indiana, viz: Guernsey, Crawford, Logan, Medina, Ashland, Wayne, Knox, Montgomery Clark, Erie, Lorain, Richland, Plymouth district, Chester, Frederick. In Indiana, Tippecanoe, Jefferson, Wayne, Fayette, Shelby, Jennings, Warren and Fountain.

Farmers, Saw Mill owners, Livery Stable men and all others feeding stock of any kind are invited to examine the merits and superior advantages of the above mill.

The Young America will grind as much corn in the cob, shelled corn, oats, barley, and all other grains for stock as any mill of the same size and with much less draft.

What we claim is great strength, durability and simplicity, being so simple that a child can learn to grind with safety.

In the next we claim the small expense to renew the grinding parts of the mill, and the ease with which the grinders are put on the mill, at a cost of not over three dollars, which makes it superior and more economical than any other mill. The grinding parts of the above mill are made of the hardest of cast iron, as hard in fact as cast steel can be tempered. Each set will grind from 5,000 to 10,000 bushels of grain, with proper usage. Besides the set of grinders on the mill, an extra set will be sent with each mill sold, making it equal to two common mills. When found necessary to change the grinders, almost any one can do it in twenty minutes.

As a proof of the estimation in which the Young America is held in Ohio, we would state that during the fall, winter and spring of 1855–56, 2500 were made and sold in Ohio, at Zanesville, by Douglas, Smith & Co., Hall & Allen of Mansfield, Eldridge & Fauceney of Cincinnati, and at New Philadelphia.

At this time there is not less than 200 being sold every week in Ohio, at retail, besides those sold in other states east and west.

The above mill is being manufactured and can be furnished at wholesale and retail, from the Wisconsin Iron Works of A. J. Langworthy, on the water power in the City of Milwaukee. The mill is warranted perfect in all respects.

Dealers in agricultural implements and machines, of the State of Wisconsin, are requested to call and make arrangements for the sale of the above mills, to whom a liberal discount will be made on the retail price; also any others wishing to engage in a profitable business. Would call attention to good men who have teams, in any part of the State, who would peddle the mills through the country. Four can be taken on a wagon at a time—liberal arrangements would be made with them.

The above mill will grind from 8 to 20 bushels of grain per hour, in accordance with the kind and condition of the grain.

Price of the Young America $55—ready to hitch to and warranted to grind as fast as any mill of the same size when properly worked, and with less draft.

For further information address or see the undersigned, sole owner of the right to the State of Wisconsin.

MEDICAL.

R. R. R.

THE MEDICAL TRINITY.

EACH of Radway's Three Remedies possess special curative powers over certain diseases; and when either the Ready Relief, Renovating Resolvent, or the Regulators, are used for the certain class of diseases they are specially designed for, the system undergoes a rapid transformation from its diseased condition to a healthy and happy state of existence.

RADWAY'S READY RELIEF.

This remedy is to be used externally, or taken internally, for all pains, aches and infirmities. In a few minutes it stops the most torturing pains, subdues all inflammations and cures the worst cases of *Rheumatism, Lumbago, Gout, Paralysis, Neuralgia, Tooth-ache, Burns, Sprains, Strains, &c.* It restores the *lame, infirm and crippled* to soundness and vigor. It is likewise a certain cure and preventive for *Fever and Ague, Scarlet Fever, Smallpox, Croup Hoarseness, Colds and Influenza.* Whenever you feel any unpleasant or painful symptoms, take a dose of Radway's Ready Relief, or apply it to the parts where the pain is located; in a short time you will enjoy ease and comfort.

Bear in mind, there is no pain so severe but that Radway's ready relief will stop, and no system so crippled with infirmities but that the R. R. R. Remedies will restore to sound and vigorous health.

RADWAY'S REGULATORS.

The discovery of these wonderful pills establishes a new era in purgatives, and a new principle in the science of medicine. In taking these pills no griping pains or sickness at stomach is experienced; they operate naturally, leaving the bowels, liver and other organs in a natural condition.

They insure those who take them a good appetite and a healthy digestion.

Each pill that is taken gives new life to the blood; they purify it, take from it all impure deposits and equalize its circulation.

One or two doses of Radway's Regulators will entirely remove all distressing symptoms of Dyspepsia, Jaundice, Nervousness, Indigestion, Costiveness, Liver Complaint, Billiousness, Melancholy, and will cure all organic diseases, either in man or woman. Ladies troubled with irregularities or weakening discharges, may rely upon a prompt cure and regular periods if Radway's Regulators are taken.

PICTURE OF HEALTH AND BEAUTY.

A few doses of Radway's Regulators will insure a clear, fair, pure and healthy skin and a rosy complexion. They give to those troubled with weak dull, yellow eyes, a clear and brilliant appearance. Radway's pills give a natural beauty to the face, eyes and head; and the use of the Ready Relief as a wash for the teeth and an aromatic for the breath, will change the most disgusting foul breath to sweetness, and the blackest teeth to Parian whiteness.

One to ten of Radway's Regulators is a dose; they never do injury, but always do good.

CONGESTIVE DISEASES, APOPLEXY, TERMINATION OF BLOOD TO THE HEAD.

Persons of full blooded plethoric habits are more subject to congestive diseases, headaches, rush of blood to the head, than those of a lean habit; bleeding in these cases is highly detrimental, nor does this practice lessen the danger; the difficulty is not caused by too much blood, but by its disturbed circulation, and the irregular action of the *heart*. Now a dose of Radway's Regulators will correct all these difficulties—they will *correct* the action of the heart, liver, and all other organs to a natural and regular action, and will immediately *equalize* the circulation of the blood. Mere purging in these cases will only aggravate the disease.

Radway's Regulators not only *regulate* the bowels, by which all diseased and injurious matter is purged from *the body*, but they control the whole system, and, *force*, each and every organ, the heart, brain, liver, nerves, bowels, skin, pancreas, bladder, kidneys, stomach, lungs, throat, blood, and every tissue in the whole organization, to a healthy and regular action. They infuse new life throughout the whole system; their action is not confined to any local part of the stomach, like common pills, but they search out diseased action wherever it may be hidden, and expel all diseased humors and deposits from the body. In a few hours after taking a dose of these life creating pills you feel refreshed and invigorated from head to foot. We have known the dispirited and melancholy take a dose of Radway's Regulators *just to see good—they make one feel so happy.*

RADWAY'S RENOVATING RESOLVENT.

Cures Humors, Salt Rheum, Scrofula, Ulcers, Nodes Tumors, Fever Sores, Skin Eruptions, Blotches Bronchitis, Dyspepsia, Gout, Dropsy, Syphilis, Consumption, Apoplexy, &c., and all constitutional and chronic diseases, either inherited by hereditary transmission, or inoculated by exposure or otherwise.

There is no remedy in the world that will work such miraculous cures in old diseases as Radway's Resolvent. It changes the whole human body—reproduces new and healthy blood.

Bleeding from the lungs—Radway's Renovating Resolvent will, in a few minutes, check Hemorrhage from the lungs or throat. In cases where the patient coughs up clots of blood or pus streaked with blood, Radway's Resolvent will soon remove the difficulty.

Sarah Hammond, of 198 East Thirty-Second st., had a bad cough for two years, she coughed up sometimes half a pint of blood during the night. She was cured in seven days by the Relief and Resolvent.

A sore leg of 21 years cured in three weeks, by Radway's Relief. Mr. T. H. Kilgo, a merchant of high-standing in Dahlonega, Ga., says:—"That a gentleman who, for 21 years, had been afflicted with a sore leg, that resisted every kind of treatment, was effectually cured in three weeks by Radway's Ready Relief, Resolvent and Regulators."

GENERAL COMPLAINTS.

If you catch a sudden cold, get a sore throat, or become afflicted with influenza, a dose of Radway's Regulators, and an application of the Ready Relief, will free you from all pain and uneasiness. In a few minutes after the Relief is applied no soreness will trouble you. If afflicted with headache, either nervous or from foul stomach, Radway's Ready Relief, and a dose of Regulators, will remove all pain from the head, and restore health to the nervous and afflicted.

Radway's Ready Relief and Regulators always cures *Dyspepsia* in its most distressing forms, and nervousness with all its horrors.

WHOOPING COUGH.—Thousands of cases of Whooping Cough have been cured in a few days by the Resolvent and Relief, and if the Whooping Cough is prevalent in the neighborhood, those who take half a teaspoonful of Ready Relief in a little water, once or twice per day, will never catch it. Radway's Relief destroys the infection of the "Whooping Cough."

TOBACCO CHEWERS.—Those who have become reduced by the effect of tobacco, or the indulgence in spirituous liquors, who feel the horrors of incapacity, weakness, sterility, and the *infirmities* which a fast and intemperate, luxurious and lustful course of life inflicts upon its victims, will find relief from these horrors, and sure restoration to health, strength and vigor, by the use of Radway's Relief, Regulators and Resolvent.

BOERHAVE'S HOLLAND BITTERS

THE CELEBRATED HOLLAND REMEDY FOR DYSPEPSIA, DISEASE OF THE KIDNEYS, LIVER COMPLAINT, WEAKNESS OF ANY KIND FEVER AND AGUE,

And the various affections consequent upon a disordered STOMACH OR LIVER,

Such as Indigestion, Acidity of the Stomach, Colicky Pains, Heartburn, Loss of Appetite, Despondency, Costiveness, Blind and Bleeding Piles. In all Nervous, Rheumatic and Neuralgic Affections, it has in many instances proved highly beneficial, and in others effected a decided cure.

This is a purely vegetable compound, prepared on the strictly scientific principles, after the manner of the celebrated Holland Professor, Boerhave. Because of its great success in most of the European States, its introduction into the United States was intended more especially for those of our fatherland scattered here and there over the face of this mighty country. Meeting with great success among them, I now offer it to the American public, knowing that its truly wonderful medicinal virtues must be acknowledged.

It is particularly recommended to those persons whose constitutions may have been impaired by the continuous use of ardent spirits, or other forms of dissipation. Generally instantaneous in effect, it finds its way to the seat of life, thrilling and quickening every nerve, raising the drooping spirit, and, in fact, infusing new health and vigor in the system.

NOTICE.—Whoever expects to find in this a beverage will be disappointed; but to the sick, weak and low spirited, it will prove a grateful aromatic cordial, possessed of singular remedial properties.

CAUTION!

The great popularity of this delightful Aroma has induced many imitations, which the public should guard against purchasing. Be not persuaded to buy anything else until you have given BOERHAVE'S HOLLAND BITTERS a fair trial. One bottle will convince you how infinitely superior it is to all these imitations.

Sold at $1.00 per Bottle, or six Bottles for $5.00 by the
